The attached Itemized Cost Summary outlines all of the cumulative cost expenditures in the Integrated Financial Management/Compass Systems for Niagara LaSalle Corp Site, IN. These costs run through April 30, 2020.

This report lists all the payroll, travel, shipping, purchases, state assistance agreements, Interagency Agreements and contractor costs related to this site. We have also computed and included for your information Region V's indirect costs for this site. Based on adjustments recommended by the Office of Inspector General's Superfund audit for Fiscal Years 1983 through 1986, final indirect costs rates were computed as a dollar rate per hour (see accompanying table for rates for FY's 1983 through 1989). Indirect cost rates for these years were conservative and did not result in allocating all indirect costs to sites.

Therefore, starting in FY 1990 a new full cost indirect rate methodology was developed and applied to Superfund site costs. This essentially means that the new indirect cost rates are expressed as a percentage of total direct site costs as opposed to a dollar rate per hour (as was true under the old methodology). The resulting indirect cost rates for FY 1990 through 2018 are based on actual costs for those fiscal years (see accompanying table for rates for FY's 1990 through 2020).

The indirect cost rate for FY 2019 and 2020 will be 63.77%. This rate is provisional for these two years and will be updated upon subsequent indirect cost calculations.

If you have any questions or require any additional assistance, please contact Darius Taylor at 1-312-353-3241.
